June 8, 2020

Dear Families of our beloved 2Life Residents,

You may have heard Governor Baker announce that he believes it acceptable for family members to visit older adults outdoors. We remain concerned about the safety of everyone on our campuses and urge extreme caution.

We know you have a great desire to see your beloved family member. You must weigh that desire against the risk involved with seeing your family member and recognize that you may be bringing virus germs onto our campus, even if you have no symptoms yourself.

To promote safety, if you do visit our campuses:

- Arrange to meet your family member outside the building
- Bring your own chairs and remain six feet apart from other groups
- ALL visitors and residents MUST wear masks for the entire visit and maintain the 6 foot distance from each other
- DO NOT share food. Doing so can cause serious health risks and increases the chance of transmitting latent infection
- You should plan your visit knowing that visitors are NOT permitted inside our buildings for any reason. The bathrooms are closed
- Plan your visit for no longer than 45-60 minutes

We look forward to the day it is safe to have more interactions and opportunities to gather together. For now, we remind you that the virus is still very active and spreading in Massachusetts and we take our responsibility for your loved one's safety very seriously.

Thank you for your cooperation and patience.
Sincerely,

Amy Schectman
President and CEO
2Life Communities
